

## Energia 360

Energia 360 is a conductive carbon black which is designed to deliver excellent conductivity in various thermoplastics such as PP, HIPS, PE, PS, PA and other rubber applications. The morphological properties of Energia 360 are balance such a way that it offers excellent conductivity and good processability. It is a very clean specialty carbon black to offer excellent product life.

Along with excellent conductivity the other key performance attributes are low sulphur content, low ash content, ease of dispersion and low ionic impurities. It is suitable for use in medium and high voltage power cable, rubber applications and Electrostatic Discharge (ESD) Protection Products like IC Carrier Tape, IC Trays, IC Boxes, IC Pouches, safety packaging for hazardous goods, automotive fuel systems, conductive rubber sheets, and safety applications in explosive areas. It is available in bead form.

## **TYPICAL VALUE**

NSA	OAN	Sieve Residue 325	Heating Loss
m²/g	CC/100g	ppm	%
245	160	6	0.6

## **PACKAGING: 15 KG PE/PAPER BAG**
